

## MANY PATIENTS ARE INOCULATED

But They Are Small Part of Those Who Clamor for Treatment.

### FRIEDMANN IS BESIEGED

Hundreds of Sufferers Haunt His Quarters, Only to Be Disappointed.

[Special to The Times-Dispatch.] New York, March 17.—After treating twenty-three patients in two hospitals with his turtle germ vaccine during the late afternoon, Dr. Friedrich Franz Friedmann returned to his hotel to-night and announced jubilantly that he had received offers from the governors of fifteen States to come to various parts of the country and test his discovery.

"The Governors have assured Dr. Friedmann that if he will come to their States they will suspend all medical regulations and give him every opportunity for a fair test of his cure," said the physician's assistant.

Dr. Friedmann, however, intends to stay right here in New York until he is given an opportunity to treat the thousands of poor people who are in desperate need.

In his new scheme of treating hundreds of patients a week, Dr. Friedmann to-day inoculated eleven patients at Bellevue and twelve at the Montefiore Home. One-half a cubic centimetre of the whitish liquid vaccine was injected at Bellevue into one woman and ten men, ranging in age from sixteen to fifty.

The patients were all pulmonary sufferers, except one, who had tuberculosis of the wrist. Many physicians were present at Bellevue to witness the inoculations. Among them were Dr. G. W. Lowry, of Hastings, Mich.; Dr. H. M. Kellogg, city physician of Milwaukee; and Dr. Elliott, the first man to advocate the open air treatment in tuberculosis.

Dr. Friedmann moved easily and swiftly from the time the first patient was wheeled in and the history of the first case was read by Dr. Miller. With perfect technique the eleven were inoculated in less than thirty minutes.

Dr. Friedmann is ready to treat without charge all sufferers from tuberculosis, according to his brother, Dr. Arthur Friedmann, who to-day declared it was a crime not to permit him to do so. Dr. Friedmann has been refused permission by the medical authorities of the city to give his treatment except in connection with certain hospitals. Since his arrival here hundreds of sufferers have besieged him to aid them.

"Many of these people have come from out of town, and they cannot be taken into the city hospitals because they do not live here," Dr. Arthur Friedmann declared. He told of a victim who had laid siege for Dr. Friedmann at his hotel for ten days.

"This man," he continued, "has a temperature of 104 and 105, and is walking about the streets. He may drop dead in the street, but we cannot help him. Dr. Friedmann can treat only cases under the care of government physicians. There are hundreds of physicians whom he wants to give his treatment to for the benefit of humanity, but his hands are tied. He is eager to treat those patients, rich and poor alike, without charge. It is a crime not to allow him to do so."

### FLOOD EXPLAINS CALL.

Minister's Visit Was Not Breach of Diplomatic Etiquette. Washington, March 17.—The recent call of Senator Belmont, Colombian minister, upon Chairman Flood, of the Senate Committee on Foreign Affairs, was explained to Acting Secretary of State Wilson to-day by Mr. Flood, who said the minister simply made a routine inquiry about a congressional document. Mr. Flood's explanation was brought out by a suggestion that the call of the minister had been a breach of diplomatic etiquette.

### 812,000 FIRE IN HAMPTON.

For a While Threatens to Wipe Out Entire Business Block. New York News, March 17.—A fire that at one time threatened to wipe out an entire business block in the city of Hampton, Virginia, to-day destroyed nine small buildings and damaged several others, causing a loss estimated at \$125,000. Valuable property was saved by the shifting of the wind while the flames were raging.

## IT WILL BE NEXT SUNDAY.

Here's everything to make your greetings in correct form. Frock coats, striped trousers, silk hat, gloves, ascot or four-in-hand, patent leather shoes—all here, all moderately priced. Sack suits in smart and distinctive styles, \$15.00 to \$40.00. Frock coats, with vest. Light weight overcoats, \$18.00 to \$30.00.

Easter wear for boys and girls, too.

**Ad. Dwyer**

## RIGHTS OF FLOOR MAY BE GRANTED

Effort Will Be Made to Let Cabinet Members Attend Sessions of Each House.

[Special to The Times-Dispatch.] Washington, March 17.—Regardless of politics, an effort is to be made at the next session of Congress to enact legislation that will give heads of executive departments the right to attend sessions of each house, with opportunity to take part in discussions and to answer questions of which they have had due notice. President Wilson approved the plan.

"I am strongly in favor of this suggestion," said Senator Root to-day. "Our system of government with respect to this particular matter is wrong. If cabinet heads occupied seats on the floor of the Senate and could participate in debate and answer questions bearing upon the acts of their respective departments, there would be less friction between the legislative and executive departments, and the public business would, I believe, be transacted with more expedition and with greater good to the country."

Senator Root to-day obtained consent for the reprinting as a public document of a report made to the House in 1864 and to the Senate in 1881 by George H. Pendleton, Democratic Representative, and later Senator from Ohio, urging the adoption of this system of a reform that would be beneficial to the country.

If the suggestion should be adopted the participation of heads of departments would be confined to discussions. The right to vote is not contemplated in the proposed change.

### CRAIG IS ASKED FOR PARDON.

Appeal to Restore Citizenship of Convicted University Hazer. Raleigh, N. C., March 17.—Governor Craig was asked by telegraph to-day to pardon W. L. Merriman, A. C. Hatch and R. W. Oldham, the university sophomores convicted Saturday of manslaughter in the death of Freshman Isaac Rand, September last.

The appeal came from Merriman's father, and is made to restore the young men's citizenship. Governor Craig has not replied to the petition. Much difference of legal opinion exists as to whether pardon would restore citizenship or whether a sentence not carrying imprisonment destroys it.

## TRIAL OF HUTSON IS POSTPONED

Death in Family of One of Defense's Lawyers Cause of Delay.

Danville, Va., March 17.—Owing to death in the family of one of the lawyers conducting the defense, the Hutson case was postponed until Wednesday morning in the Corporation Court here to-day. John R. Hutson is an ex-police officer. He is charged with stealing \$150 from a man named T. J. Pickert in the segregated district last fall.

The case against William C. Cooper, a young man of good family, who is charged with killing a stableman, J. B. Brooks, on June 6, 1911, has been postponed until the coming June term of court, on account of the serious illness of Miss Hulse Powell, one of the material witnesses for the Commonwealth. No effort was made to-day to bail the young man, who has been confined in jail since the fatal affray. He was tried last December, on which occasion the jury failed to reach a verdict. The self-confessed city treasurer, will be sentenced by the judge to-morrow.

### DANIELS ACCEPTS INVITATION.

Will Attend Banquet Given by Raleigh Pressmen's Union. Raleigh, N. C., March 17.—Secretary of the Raleigh Pressmen's Union has accepted the invitation of the Raleigh Printing Pressmen and Assistants' Union, to attend and speak at the banquet given by that union in his honor on the first banquet given in Raleigh since his appointment. He is expected to arrive in Raleigh on Wednesday morning, and will spend a few days here in arranging affairs connected with his paper, the News and Observer.

### THREATEN TO KILL PREMIER ASQUITH

Pandemonium Reigns at Weekly Meeting of English Suffragettes.

[Special Cable to The Times-Dispatch.] London, March 17.—Pandemonium reigned for several minutes at the suffragettes' regular weekly meeting, held to-day in London Pavilion, when a demonstration was started against Premier Asquith.

"Why don't you blow up Asquith?" yelled some of the audience as Mrs. Emmeline Pankhurst was telling of her daughter, Sylvia's, confinement in Holloway Jail. "Shoot him!" was another of the calls which frequently interrupted the speaker. All of the ministers came in for their share of abuse, but the Premier was by far the most unpopular.

## ENTIRE FAMILY UNDER ESPIONAGE

Relatives of Late Rear-Admiral Eaton Closely Watched by Police.

### STORY TOLD BY HOUSEKEEPER

Mrs. Eaton Said to Have Mentioned Admiral's Mania for Poison.

[Special to The Times-Dispatch.] Boston, March 17.—A sharp police surveillance of the home of Rear-Admiral Joseph G. Eaton, U. S. N., whose mysterious illness and sudden death in his Rockland home is the subject of investigation, continued to-day, while the inquest in the Hingham District Court went on in secret. Not a single member of the family was allowed to leave the house without being accompanied by a policeman. Newspaper men and curious persons were forced to move on by officers, who constantly guard the premises.

Mrs. Ralph P. Keyes, stepdaughter of the admiral, was indignant when a policeman accompanied her on a shopping trip to-day. She told him it was an injustice that the Eaton family should be thus cut off from the rest of the world, and kept under espionage.

"The police are rummaging the house from top to bottom," she said, "going in and out and causing no end of excitement among members of the household." Mrs. Keyes' escort did not leave her for a minute while she was making her purchases.

The inquest was suddenly shifted to the Eaton home this afternoon, where the testimony of Mrs. George Harrison, Mrs. Eaton's mother, who is not expected to live, was taken at her bedside.

She was in the house at the time of the admiral's strange illness, and her story of the admiral's last hours is considered highly important.

The most important witnesses at the inquest to-day were Mrs. Keyes and her husband, Ralph Keyes. Keyes told of his wife's relations with Admiral Eaton, against whom she declared open hostility before and since his death. Joseph Frame, the Eaton family physician, also was examined. The investigators heard to-day of a pertinent statement by Mrs. John Burns, of Rockland, formerly housekeeper for the Eaton family, who declares Mrs. Eaton told her on the day the admiral died:

"The admiral has laid poison out in the barn. I don't know what he was intending to do with it. He had mania for that sort of thing. He even has used the dishes in the pantry to mix his poison. The authorities have begun a search of C. D. Ainsworth, Mrs. Eaton's divorced husband, who is said to have been seen recently in his former wife's company in Norway."

## ROBBERY MYSTERY NOT YET CLEARED

Police Have No Clue to Men Who Looted Simon Pawnshop.

### JOB IS CLEVERLY DONE

Seems Certain That Thieves Had Inside Information as to Wiring.

[Special to The Times-Dispatch.] New York, March 17.—The men who perpetrated the \$300,000 robbery in the pawnshop of Martin Simon & Son, No. 84 Hester Street, Sunday morning, must have possessed definite knowledge of the electric wiring by which the place was supposedly made burglar proof. This is the belief expressed by Deputy Police Commissioner Dougherty to-night.

The police are making a minute investigation of all who had access to the pawn brokerage shop, and thus became cognizant of the manner in which the establishment was protected against burglars. Both Martin Simon and his son, Max, agree with the police that the intruders must have known in advance how to avoid setting off an alarm which would have brought the special patrolmen of the burglar alarm company to the scene.

"The men who committed this deed," young Simon said, "used much skill in passing the electric wiring to the walls, floor, in the basement and then up in the shop. This means that they knew how the wires were laid. Then they drilled into the safe in such a way that they just passed the wires that connected it to the alarm bell. It is a family business. None but relatives worked in the place. The few others who came in, it seems to me, must have been exceptionally keen to have been able to do without our becoming suspicious."

"Our loss is at least \$250,000. At present I cannot say positively what the figure is, for it will take several days for experts we have engaged to get up an inventory of the stock left and of what was stolen. It seems that the very partitions in which the money and most valuable diamonds were kept were known to the burglars. They went straight to this section of the vault, ignoring the section in which watches and more bulky valuables were stored."

"Our loss, though heavy, and such as it means to the ruined and must forever close our business, is nothing compared to that of our customers. All the articles pledged were worth more than the money we gave for them. And besides this, we had much property from other pawnbrokers, brought to us for safekeeping. We have offered \$10,000 reward for the arrest and conviction of the guilty parties."

Throughout the East Side the robbery was received as a most severe blow to hundreds of families. Scores of men and women gathered around the closed shop, some waving their shouting threats against the Simonson and demanding to know when they could learn if their particular property had been stolen. One of police reserves protected the dings-looking place.

"Three days," they continued to shout at the crowd, their meaning being that in that time something could possibly be told to them.

It was said at the Holmes Protective Association offices that the wiring of this place is similar to that of scores of other concerns, and that only a few months ago Mr. Simonson was told that the building of a cabinet about his vault would render the place doubly safe. He refused, however, to have the extra work done, depending upon the existing wires and the knowledge that none but those with "inside information" could pass them without setting off the alarms.

A woman who lives over the pawnshop has given the police a description of two men she saw drive up to the shop with a peddler's wagon yesterday forenoon and drive away again with several packages taken from the cellar. The actions of the men did not seem in any way suspicious at the time, and they made no effort at hurry or concealment.

### WOMAN ATTEMPTS TO KILL HERSELF

Drinks Carbolic Acid in Presence of Number of People at Railroad Station.

Greensboro, N. C., March 17.—Grace Stille, a young white woman of High Point, N. C., drank the contents of a two-ounce vial of carbolic acid in the local passenger station here to-day. A number of passengers witnessed the act, and one of them intervened before the bottle could be wrested from her hands. She had drained it. She was removed to a hospital, and it is reported cannot live.

W. B. Sizemore, a second cousin, is being held by the police in connection with the affair. Sizemore at first denied any relationship with the woman, but under a police grilling later admitted that he had been with her in Danville, Va., and that he had been drinking with her. He said he had married William Hicks, of High Point, five years ago, but that since a separation several months ago he had resumed his maiden name. In the woman's effects was two insurance policies of \$500. Sizemore was also in a suit case two policies, the woman being named as beneficiary. Two small vials of carbolic acid were found in the man's satchel. The bottle from which he drank and it has been established that it was purchased by the woman during the afternoon. The police, however, believe evidence in their possession will show that Sizemore had previous knowledge of the woman's purpose.

## WRIGHT PATENTS ARE RECOGNIZED

Famous Aviator Is Given Favorable Decree in Foreign Courts.

### MEANS STIFF LICENSE FEES

His One Regret Is That Brother Did Not Live to Enjoy Legal Victory.

New York, March 17.—Orville Wright, who, with his sister, Kathryn, returned to-day from a trip to Berlin, brought back the decree of the German Supreme Court and the French Court of Appeals, the highest tribunals in these countries, stating that all the Wright basic aeroplane patents are valid and that all other flying machines are infringements.

While Mr. Wright was receiving signal honors from the German Supreme Court on February 26, Judge Hugel, of the United States Circuit Court, decided on February 27 that the Wright patents are valid in this country. So that it is now definitely settled in Europe and the United States that all flying machine manufacturers will have to pay a stiff license fee to operate under the Wright patent.

Mr. Wright's chief note to-day, in talking about these patents, was regret that his brother, Wilbur, who had entire charge of preparing and prosecuting their patent cases, had not lived to see his efforts crowned with success. Throughout his interview Mr. Wright improved over old one. With its use, he said that the Wright factory in Dayton will now devote itself to perfecting a hydro-aeroplane that can be used in rough water, because existing types of hydros can safely be employed on surfaces that are almost pondlike.

"In addition to this," Mr. Wright said, "we shall resume work at Dayton in perfecting our lateral and horizontal automatic stabilizing devices. We have found a better device than our old one—or rather, we have greatly improved our old one. I notice that every body who has ever wet announced his intention of trying the trick also tries to dispose of aeroplane stock resulting from the publicity his first announcement earned. I notice that every body who has ever wet announced his intention of trying the trick also tries to dispose of aeroplane stock resulting from the publicity his first announcement earned. I notice that every body who has ever wet announced his intention of trying the trick also tries to dispose of aeroplane stock resulting from the publicity his first announcement earned."

"The reason aviation is stagnant in America is the newspapers. They give great display to mishaps and death plunges, and have little to say regarding improvements in the aeroplane. The men who get killed in the crash are circus performers. Their deaths are the result of their own daring. They take awful chances for fame and fortune. The same aviator takes no such chances, and aviation, rightly conducted, is as safe as traveling on a steamer, a train or an automobile."

Charles Goldman Wins. Schenectady, N. Y., March 17.—Charles Goldman beat Patsy Grannigan in ten rounds here to-night. Goldman had too much class for the "Fitts" burglar.

Robert D. Firebaugh. (Special to The Times-Dispatch.) Harrisonburg, Va., March 17.—Robert D. Firebaugh, seventy-four years old, farmer and Confederate veteran, died Saturday night near Rockbridge Baths, Rockbridge County. He leaves his widow and six children, including Rev. R. M. Firebaugh, a Presbyterian minister of Rockbridge County, a banker of Lexington, Emmet, of Charlottesville, and Mrs. A. K. Hopkins, of Harrisonburg. He was a senior elder in the Presbyterian Church.

Charles Crabbe. (Special to The Times-Dispatch.) Heathsville, Va., March 17.—Charles Crabbe, aged about twenty-one years, oldest son of the late Charles Crabbe, a well-known citizen of this county, died at an early hour this morning of pneumonia, at his home near Heathsville. Interment will be at Smithland Baptist Church, and the services will be conducted by Rev. A. J. Beamy.

George D. Coleman. (Special to The Times-Dispatch.) Fredericksburg, Va., March 17.—Geo. D. Coleman, a well-known citizen of Spotsylvania County, died at his home near this city, of heart trouble, aged sixty-nine years. He is survived by his wife and six children.

C. L. Caldwell. (Special to The Times-Dispatch.) Bristol, Va., March 17.—C. L. Caldwell, a popular passenger train conductor on the Southern Railway, died suddenly of pneumonia at Knoxville last night, aged forty-nine years. He had been ill but a few hours. He was well known here, being a native of Johnson County, Tenn., near the Virginia line. His wife and one son survive.

George A. Abbott. (Special to The Times-Dispatch.) Alexandria, Va., March 17.—George A. Abbott, a plate engraver, died Sunday morning in his home, 1200 West Street, extended, west of this city. He is survived by his wife and one son and a daughter. His funeral will be held at 4 o'clock to-morrow afternoon from his home.

### DEATHS

SCHAD.—Died, at the residence of Mrs. M. E. Rose, 921 N. North Street, RUSSELL, T. son of the late Maggie A. and John I. Schad, in the twenty-sixth year of his age.

FUNERAL WEDNESDAY MORNING, March 19, at 10 o'clock, from St. Patrick's Roman Catholic Church, Norfolk, Va. Charles Lee, pastor.

BLANTON.—Died, March 17th, at 7:35 A. M., at Grace Hospital, BENJAMIN F. BLANTON, of this city.

FUNERAL, March 18th, at 3 P. M. Friends and acquaintances invited to attend.

STAUDE.—Died, Monday morning, 6:10, at his home, 1127 West Main, Mr. ANTON JOSEPH STAUDE.

FUNERAL, March 19th, at 3 P. M. Friends and acquaintances invited to attend.

CHILES.—Died, March 17, 1913, at 12 o'clock, at the residence of Mrs. A. L. Chiles, 2217 Venable Street, MRS. E. C. CHILES, aged sixty-two years.

besides her husband, seven children, Mrs. W. A. Bancalar, Mr. A. L. Chiles, I. T. Chiles, Miss Edna Chiles, of Richmond; Mrs. L. L. Sikes, Mrs. G. L. Long and Mr. Charles Chiles, of Caroline; two sisters, Mrs. B. A. Mason and Mrs. C. Ball, also of Richmond.

Funeral from residence WEDNESDAY at 12 o'clock.

STAUDE.—Died, Monday morning, 6:10, at his home, 1127 West Main, Mr. ANTON JOSEPH STAUDE.

FUNERAL, March 19th, at 3 P. M. Friends and acquaintances invited to attend.

CHILES.—Died, March 17, 1913, at 12 o'clock, at the residence of Mrs. A. L. Chiles, 2217 Venable Street, MRS. E. C. CHILES, aged sixty-two years.

besides her husband, seven children, Mrs. W. A. Bancalar, Mr. A. L. Chiles, I. T. Chiles, Miss Edna Chiles, of Richmond; Mrs. L. L. Sikes, Mrs. G. L. Long and Mr. Charles Chiles, of Caroline; two sisters, Mrs. B. A. Mason and Mrs. C. Ball, also of Richmond.
